Unlike many other scholarship programs, this opportunity creates a pathway for first-generation students with lower GPAs and test scores to pursue education at a two-year college, four-year college or university, independent private career school, or trade school. This scholarship program is built for marginalized students who can demonstrate grit and determination in overcoming adversity. Selection of Believe in Me scholarship winners is based on several factors, with particular emphasis on each individual's character, personal merit, career goals, and background. Good luck with your application!
