

## Our Mission

### Who We Are

Believe in Me was established in 2006 to provide shelter, education, health care, and emotional and spiritual support for children. Our vision is to help every kid develop the self-confidence they need to succeed. With generous support from donors, we fund programs that provide marginalized kids with a safe place to call home, a family that loves them, a feeling of community, and opportunities to learn, build self-esteem, and have fun.

### The Believe in Me Academic Scholarship Program

Our [scholarship program](#) empowers marginalized students on their pathways toward educational success. Our program is designed to give them access to quality education and to invest in their future. We are committed to helping students achieve their dreams and to unlock their potential.

### What Expenses Does This Scholarship Cover?

The Believe in Me Academic Scholarship Program will cover the cost of tuition and fees, textbooks, and on-campus housing for up to four years. We are committed to helping students reach their educational goals by investing in their future.
